

Heatlie Cleaning Products

Suitable for all Heatlie products.
Great for commercial applications.

Heat Activated Cleaner for Hotplate:

Instructions on how to use the Heat-Activated Grill and Toaster Cleaner:

1. Use the product full strength.
2. Remove any build up on the plate with a scraper.
3. Turn the Heatlie barbecue onto high and leave for 3 minutes.
4. Squirt the Heat-Activated Cleaner onto the plate and with your scourer gently spread over the whole plate.
5. Leave the mixture for a further minute.
6. Using a scourer, rub over the plate from edge to edge. Repeat over any area that may be particularly baked on.
7. Using the scraper, direct any residue on the plate toward the drain hole.
8. Turn the BBQ off and when the heat has subsided wipe over with a clean damp cloth.
9. Remove and clean the fat container.
10. Immediately place cooking oil on the plate and heat for 2 minutes. (This will ensure the plate has a protective coating of oil and will not rust.)
11. The BBQ plate is now ready for use.

Non-hazardous substance or mixture. Wash hands thoroughly after handling.

First Aid:

*In case of eye or skin contact – rinse with plenty of water.
If swallowed rinse mouth. Get medical attention if symptoms occur.
If inhaled get medical attention if symptoms occur.*
